GSCW Joins to Save University System

Take Rational, Sensible View

Few people are fully aware of the effect being dropped from the accredited list of the Southern Association of Colleges and Secondary Schools will have on the 16,000 students in the sixteen schools and colleges of the University System of Georgia. No one can foresee all consequences of such action. We can only expect such things as happened to Mississippi when academic freedom was crushed under the political thumb of Governor Bilbo.

This is a time for action. No rotund, boisterous mob scene, but calm calculating discussion made to accomplish an end—to save our University System from being dropped from the association.

During the summer and early fall the political control of the Board of Regents developed an aspect that has placed higher education in Georgia in the most serious position it has ever been. Until this week the students of GSCW, the largest woman's college in Georgia has declined to take a stand. But now the time has arrived for organized student opinion to be expressed. This opinion is not the word of a minority, it is the voice of the students of the University System. With adult minds, and we do not consider ourselves "mere stu-

(Continued on page 2)

To All YWCA Members

Students of the state have been apparently apathetic to their fate until the University of Georgia students recently took a courageous and defiant stand. The action of the University was preceded by days of thoughtful planning by campus leaders and experienced law students. It is not the handiwork of "crackpots" but has been conceived by some of the most outstanding Christian students of the state—students like Bob Norman, Al Fowler and Dick Kenyan who have had years of experience in formulating and carrying out the policies and work of student church groups and nondenominational groups. They have paved the way for action for other schools in the

(Continued On Page 4)

This Will Happen To Us

This is what will happen in event we are taken from the accredited list of the Southern Association of Colleges and Secondary Schools.

1. Academic work taken by students enrolled in the University System will be void outside of the State of Georgia.
2. Teachers receiving their degrees at our colleges will not be accepted as teachers in other states.
3. No teacher receiving her degree from a State college can teach in a Georgia accredited school.
4. The University Medical College at Augusta will be dropped by the American Medical Association. This would mean no graduate of this college could practice medicine outside Georgia or in governmental service.
5. Students will be prevented from taking graduate work on the basis of degrees received in Georgia colleges at any of the higher centers of learning such as Harvard, John Hopkins Medical School, etc.
6. Without the standards of the Southern Association of Colleges and Secondary Schools, teacher salaries in the University System will be drastically cut.
7. Lowered salaries, insecurity, and political unrest will result in migration of Georgia teachers.
8. No student will be able to use two years of college credit to obtain a commission in Army Air Corp or Naval Reserve.
9. All Civil Service jobs require certain courses in a recognized college. It is probable that our students will be refused Civil Service examinations.
10. Eighty-six per cent of the graduates of the College of Agriculture fill government jobs. One of the requirements of these jobs is a college degree from a four-year college of recognized standing.

11. Many of our Home Economic graduates go into government service such as home demonstration and farm security positions; these jobs require degrees from colleges of recognized standing.
12. The Mississippi Law School was dropped from all accredited lists. The same thing will happen to University of Georgia Law School.

13. Phi Beta Kappa, ODK, Pi Kappa Delta, Alpha Psi Omega, Who's Who, and all national honorary societies will suspend chapters in the University System.

14. It has been estimated that enrollment in the University System will decrease 50 per cent. In Mississippi only four colleges were affected, yet their enrollment dropped 12000 the first year.

Students Organize Campus For Action

Colleges Laud University For Determination

The University of Georgia has received letters of praise and approval for the action which it is taking in the present University System problem. Alumni, educators, and citizens of Georgia and surrounding states are commending the students on their work.

Georgia Tech is joining the University fight.

"Feeling that Georgia students and Tech students have the same things at stake in growing stronger on our campus," declared John McDaniel, president of the Tech Debating Society. "Although there is no definite plan yet, I expect we will have a mass meeting soon to map joint action."

Wednesday John Hill, president of the student government of Teachers College at Statesboro, wired the University of their

President of Seniors Says

The time has come when we as intelligent adult students must face squarely the problems in our state, and take a strong stand against them. We cannot sit idly by and watch our state of Georgia be demoted to lower levels. Our educational system must not become a mere fragment of that for which she stands. It is up to us as Seniors of this our Alma Mater to arouse the state to the point of acting. We as Seniors must realize that this is not a political fight against one man, but a fight to demand the right to live democratically.

Mob action or mass hysteria is

(Continued On Page 4)

Unheraled and without warning the student body met today to discuss the question of joining the other students of the University System of Georgia in their fight to save the system from removal from the Southern Association of Colleges and Secondary Schools' accredited list.

This meeting was called to order by Martha Daniel, president of College Government Association. A group of campus leaders have drawn up aims, methods of procedure, and organization for the campus undertaking.

The announcements were received with a complete vote of approval.

The aims of the movement are:

1. To maintain the recognized standards of the University System among accredited colleges of the United States.
2. To prevent the drastic effects which will be direct results of removal from the accredited list of the Southern Association of College and Secondary Schools.

To accomplish these aims we will:

1. Arouse an interest of all citizens of Georgia in demanding a special session of the state assembly for the purpose of freeing the University System from political control.
2. Organize the students of the 16 state colleges into an intelligent and rational group to attain the aims by united action.

To achieve the complete cooperation of all GSCW students a workable system will go into effect immediately. The committees to be appointed by Monday night are as follows: executive committee of campus leaders, correspondence, publicity, printing, thank you, and finance.

The first step taken by the campus will be the mailing out of letters to state legislators, senators, and parents urging that action be brought forth throughout the state to have a special meeting of the assembly called.

The position that GSCW takes is positive, firm and intelligent. Alumnae will be asked to cooperate fully with the program.

The five-point program adopted by the University of Georgia at a student meeting held Monday, October 20, calls for:

(Continued On Page 8)

Daniel, CGA President States Direct Policy

To All Students:
I think that we, as students, are largely by the pressure should be made to realize the brought on them by students and the seriousness of a situation with their parents and friends and which we are faced; by that, I mean the educational turn of the University System, in our University System in our

legislators will be determined to the many in-world and all therein as my field in response to the many inquiries we have had, I'm writing—all that is, except the immorality of a situation with their parents and friends and which we are faced; by that, I mean the educational turn of the University System, in our

This session must be called before the December meeting of the Southern Association of Colleges and Secondary Schools.

It is the aim of the recently set-up Executive Committee to enlist the aid of every GSCW student in this cause, to keep the University System on the accredited list of colleges and to prevent the drastic results which would necessarily follow discrediting.

In my opinion the main hope in such a movement is to bring pressure to enable a special session of the legislature to meet. To bring such pressure the Executive Committee will need the wholehearted support of every student on our campus. The decisions and policies of many of

MARTHA DANIEL, Pres.

Jordan, Sims Promise Full Cooperation

Recent events have made us all realize and feel that we must do something. The mob spirit of the university was necessary to bring the situation to the attention of Georgians, but now it is up to us to do all that we can to help the situation. The time has come for a systematic, intelligent campaign to protect our schools. It is up to us as a class to cooperate with this plan and to do all that we can to keep GSCW on the accredited list.

This cannot be accomplished by merely talking but by the cooperative effort of our every student in Georgia, and we, as a class must stand up for GSCW and demand that something be done.

Do we or do we not want to graduate from an accredited college? It is up to you.

Sincerely,
BETTY JORDAN

TO THE SOPHOMORES . . .

Letters To The Editor

Dear Editor,

In response to the many inquiries we have had, I'm writing—all that is, except the immorality of a situation with their parents and friends and which we are faced; by that, I mean the educational turn of the University System, in our

This session must be called before the December meeting of the Southern Association of Colleges and Secondary Schools.

If we students have a part in this cause we must use discretion and common sense and not rush madly into something which might result in a mob spirit. We wish to avoid this type of behavior and to prove ourselves capable of acting in a firm but orderly manner.

I believe that we are working in a just cause and that through the united efforts of every student in the University System we can reserve the standing of the wholehearted support of every student on our campus. The decisions and policies of many of

MARTHA DANIEL, Pres.

two excellent qualities reign throughout our class for its Alma Mater, and for that reason, I appeal to every Sophomore to give all possible assistance to right the wrongs that have been done to our Georgia school system. Our task is to impress upon the people of Georgia the seriousness of this situation and to secure, in every way possible, the help of the people. By going about our task in an orderly fashion, we can accomplish our main purpose—that of keeping GSCW a respected and accredited college.

Our aims can only be reached by taking definite steps, the first of which is to have our parents and friends realize the situation. After we have accomplished this we must do everything in our power to have the state assembly meet. At this convening the assembly will be asked to refuse to accept the appointment of the three men selected this year to fill vacancies on the board of Regents.

Sincerely yours,
SARA SIMS

In these times of emphasis on national preparedness, we suppose it's only natural that more GSCW has the reputation of being money. A freshman on our campus has already invested than usual attention should be given to the opinion of the colleges of the country, but we're health experts. At any rate, we will lose this standing completely if we are taken from the accredited list.

The disastrous effects of unfavorable action by the Southern Association of Colleges and Secondary Schools cannot be estimated. We have found at least 14 points in which our state education will be altered.

Let us mention two other broad losses that have been only touched. First: the education of the whole state will be demoralized. This does not deal exclusively with the colleges, it will have a mighty effect on the elementary schools. Teachers are trained in our school. Here we offer the most complete teacher-training courses in the state with capable faculty instruction. The beginning of the downfall will be the departure of the college faculty from the university schools due to pressure, unrest, and low salaries.

The majority of the high schools of Georgia are members of the Southern Association of Colleges and Secondary Schools, which requires 75 per cent of the teachers to have degrees from accredited colleges. In simple language

dents" we face the problem, 16,000 students will soon be voters of the state and they are expressing their rights as future citizens.

At the beginning of our organization let us say this is no political fight. We are advocating no one man to solve our problems. We are earnestly trying to give all possible assistance to save our great state of Georgia and her education system, to be trite, "a fate worse than death."

Our aims can only be reached by taking definite steps, the first of which is to have our parents and friends realize the situation. After we have accomplished this we must do everything in our power to have the state assembly meet. At this convening the assembly will be asked to refuse to accept the appointment of the three men selected this year to fill vacancies on the board of Regents.

Sincerely yours,

SARA SIMS.

The girls receiving Bachelor of Science degrees after the 1942 class could not teach in any of the larger high schools of Georgia. The elementary schools would be effected due to the fact that teachers would receive inferior training in our colleges.

I feel sure that the Sophomore class will pledge strong support to accomplish this purpose, and so GSCW, don't be afraid—the Sophomores are back of you.

They must be affirmed before they are actually members. We believe the assembly will then find a just method by which the second loss: This has not been previously mentioned in aged with educators, as well as one-syllable words. It is a subject worthy to be discussed, dealt with.

state, their work has been sincere and effective but they cannot carry the fight alone.

We cannot take the fight kindly but must enter into it "heart and soul" if we would see our aims accomplished. Most assuredly it would be easier for students to remain in their placid, indifferent shells and let happen what may. However, this one has lived for four years in the atmosphere of a suffocating ours and realized how it had grown for fifty years, she does not bear to visualize the ~~days~~ that might be—a crippled faculty, a diminished student body, the absence of national prestige and recognition, a loss of GSCW prestige and above all uncertainty of students about obtaining desirable jobs (a future we have never experienced). Usually mob hysteria ~~accident~~ achieves no good things. These must be achieved through a definite, well organized movement. This plan conceived by University students and taken up by us seems to me to be the end by which we can secure our aim of keeping Georgia schools at their present standard.

Taking another lead in College Theatre plays is part of the life of Leo Luecker. Here he is as he will appear in the coming performance of *THE MAN WHO CAME TO DINE*.

(Continued From Page 1) In our program, what we do set out to accomplish will be done in a thoughtful, unemotional, and systematic manner. We need the cooperation of every senior to carry this plan through. Seniors will be working entirely from an unsentimental standpoint. Knowing that any action taken will not affect our class, But Fodder.

Thinking of the other 16,000 students in the University System how can we do otherwise?

This is a student movement. No faculty member can afford to advise us in any manner. Our action will be wholly our own responsibility, therefore we as students joining with other schools in this movement must move forward under our own reasoning and power.

As Seniors we can play the strongest part in this united effort to make ourselves heard. Never before has such a calamity befallen our college youth. We are advancing with the strongest army—our parents, who have sacrificed for four years in order that we might make a place for ourselves in our world. But what about this? Supposin' Alline Fite were Alline Combat, Aleene Cross were Aleene Ill-temper, and Doris Payne were Doris Distressofbodyormind. (Whew! That was a tough one.)

Maybe we left out some ONE name. Well, you just play all by yourself. It's fun most any way. Some say it's more fun than Biddle Bi Bi. Course we don't know about that. We're Modest. Still—

NANCY RAGLAND.

Freshman Y Group Plans Fashion Show

Some 25 freshmen girls will model in the fashion show at the meeting of the freshman Y club, Monday night at 7:00 in Beeson recreation hall. The show will be given in three divisions: sports clothes for general campus wear; semi-formal wear for Sundays and informal dinners; and formal dress for evening. The objective in planning such a project is to acquaint the freshmen with the type dress worn for various occasions on the campus and to make them clothes conscious so that they will be appropriately dressed at all times.

The NYA girls were hostesses at a party for the NYA boys from Madison Saturday night.

The refreshments were served buffet style in the banquet room.

Later the group went over to the gym and played games. Miss Virginia Shoufleit was charge of the entertainment.

DR. CHARLES TAYLOR was asked what that thing was that tripped him as he was storming out of the room. "Oh, that's only an octopus," he said, and he didn't seem to mind.

EVERYBODY in the play is worried about the radio broadcast made during the play. Maybe just a case of mike phobia.

WHEN those two people were seen tied together with a rope, it was assumed that they were either siamese twins or a bunch of love birds. However, it was found out that they were convicts, the luncheon guests of Mr. Whiteside. They are both batch friends. Heavens! Here's hoping that they can be controlled.

WHEN they brought Marjan Stewart out on the stage and seeing the play was the only way said that she was in an Egyptian that such strange sights could not be controlled, all of this was a dream, and that when they brought Marjan Stewart out on the stage and seeing the play was the only way said that she was in an Egyptian that such strange sights could not be controlled.

Jessie Perry Atkinson has been elected president of the Celia Singers. Due to the vacancy in the office of secretary, Frances Simpson has been named to this office.

He was the first tabloid editor and is now editor of the "New York Mirror." It's parallel, is LOOKING FOR TROUBLE by Virginia Cowles in which she relates her experience as a woman reporter.

Other books recently added cover a wide range of subject matter. THE TIMELESS LAND by Elenor Dark dramatizes the settling of Australia. A very good biography of Father Joseph, the right hand man of Cardinal Richelieu of France, has been written by Aldous Huxley and entitled GREY EMINENCE. Agnes Morley's NO LIFE FOR A LADY is an autobiography of her life on a NEW MEXICO RANCH. MY LAST MILLION READERS is the autobiographical sketch of Emile Gaunrea. He was the first tabloid editor and is now editor of the "New York Mirror." It's parallel, is LOOKING FOR TROUBLE by Virginia Cowles in which she relates her experience as a woman reporter.

Take Heed Warns Letter

More than at any time since I have been here at college is the GSCW student body organized for cooperation. Through adult advisors and own incentives we have evolved into a sensible, in-advisors and own incentives we know how we have accomplished thus far these aims we have set out to achieve and realize that only through this concerted effort and belief in the sincerity of our cause can we further go forward.

Without this guidance from our faculty—any member—the best should arise in us and respond to the solution of this problem of our state university system. As no other college in Georgia I believe GSCW can help, I understand the leaders have mapped out a very effective program and

since we have designated them as leaders, I feel that we should cooperate with them in every matter, especially in controlling our individual emotions. We must adhere to such a problem as adults, intelligent adults.

This to me appears as a chance of the youth of Georgia to prove that they can, that they are able to organize a great issue and see its solution through. What progress toward a democracy this we may all see—united effort now is a good beginning toward future organization.

Considered from the personal angle of a senior, this affects me in a minor way to the effect on our junior class and the situation of the state at large with the lowering of education to the previous embarrassing state level from which part of our citizenry has built a respectable educational system.

At first this will seem to be a drastic step that GSCW has taken and the students will probably be reluctant to back it until they think it out. Yet as one who has given much thought to the results of the predicament should we be dropped from the accredited list, I should like to commend the students on taking this grave problem as their own. Their actions can determine the fate of our university educational system.

A SENIOR.

full cooperation. He sent word of rapidly growing measures the college would be undertaking in a short time.

Emory University in Atlanta was one of the first Georgia colleges to offer assistance to the students in Athens.

Margaret Zeigler is in charge of the movement at Mercer University to assist the University System schools. Wednesday night the students of Mercer adopted a policy to back the state colleges.

It is believed that the colleges, both of the University System and private control, will form policies to "wake up" the state to the perilous time for education in Georgia.

Concert Series Choose Artists

The executive committee of the

Cooperative Concert association met in session Friday afternoon to select artists for the coming season. The campaign for memberships closed Friday night and went over successfully as in former years. Citizens of Sparta, Sandersville, Eatonton, Gray and Macon in addition to Milledgeville subscribed to the association. Because of the late date for the campaign there were not many available dates for outstanding artists. However, the committee feels that they have selected one of the strongest programs ever to appear in Milledgeville.

Because of the fact that the first association concert is so late in the season, the College Lyceum

committee are extending a special invitation to all association members to attend the piano recital of Egon Petri, Dutch pianist, who is to appear in Russell auditorium, Wednesday October 29, at 8 p.m. There will be no charge.

Three great artists will appear on the Cooperative Concert series this year: Igor Gorin, famous baritone of the Metropolitan Opera company, who will appear here January 23; Guiomar Novaeas, South American, world famous pianist on March 10; and Anatol Kaminsky, a young violinist, who has become one of the most sought after performers. He will appear here February 6.
